FullBloom

Impact for Life

Catapult Learning   Specialized Education SERVICES, INC.   Little Leaves BEHAVIORAL SERVICES
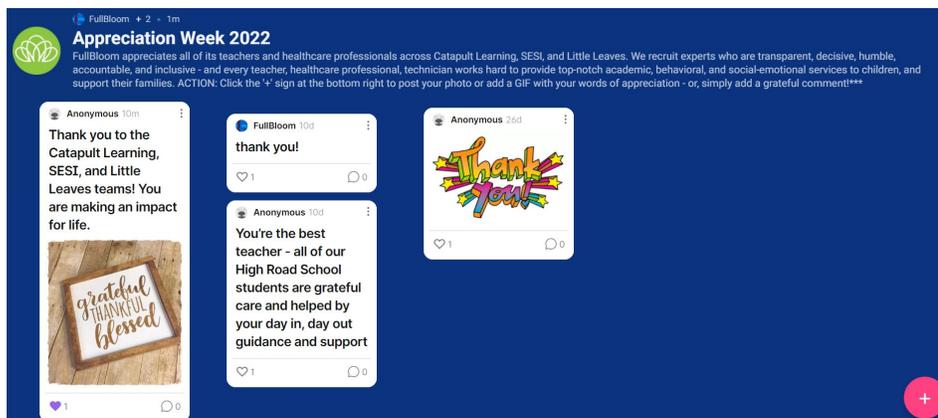

**Welcome to FullBloom's Appreciation Week Padlet!**

Padlet is a web app that allows users post all kinds of fun notes on a digital wall. With Padlet, you can post text, attach photos, link to websites, add GIFs, attach YouTube videos, record your own video, and so much more. And we've created a Padlet to show our colleagues how much they're appreciated!

Here's how you can show your appreciation for FullBloom, Catapult Learning, SESI, and Little Leaves staff members:
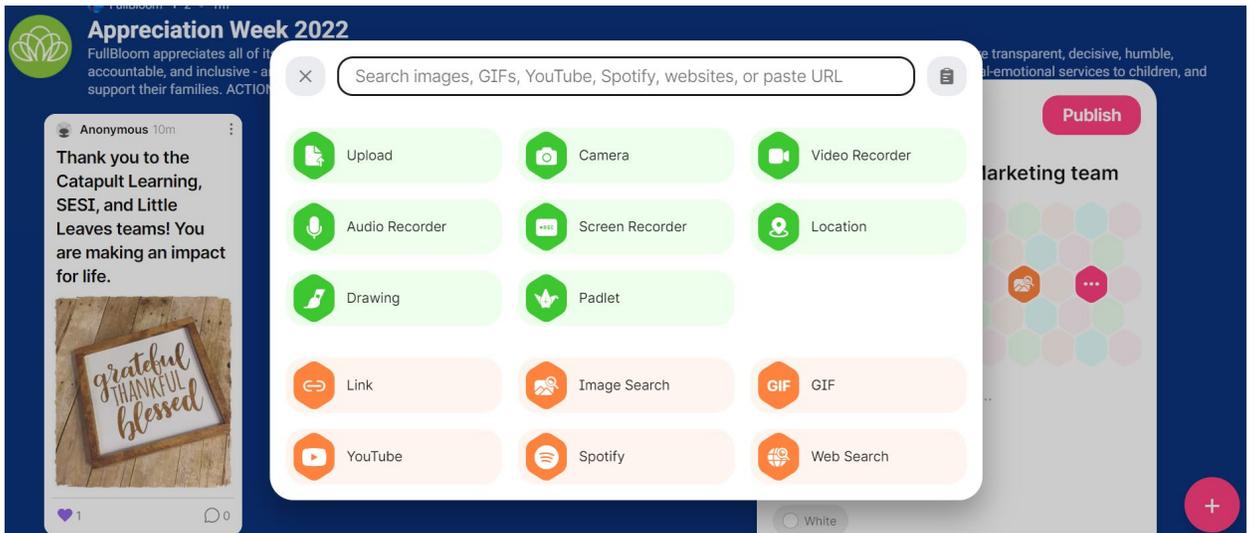

1. Go to https://padlet.com/impactforlife/2022

2. Click on the "+" button at the bottom right of your screen, or simply double-click anywhere on the screen.

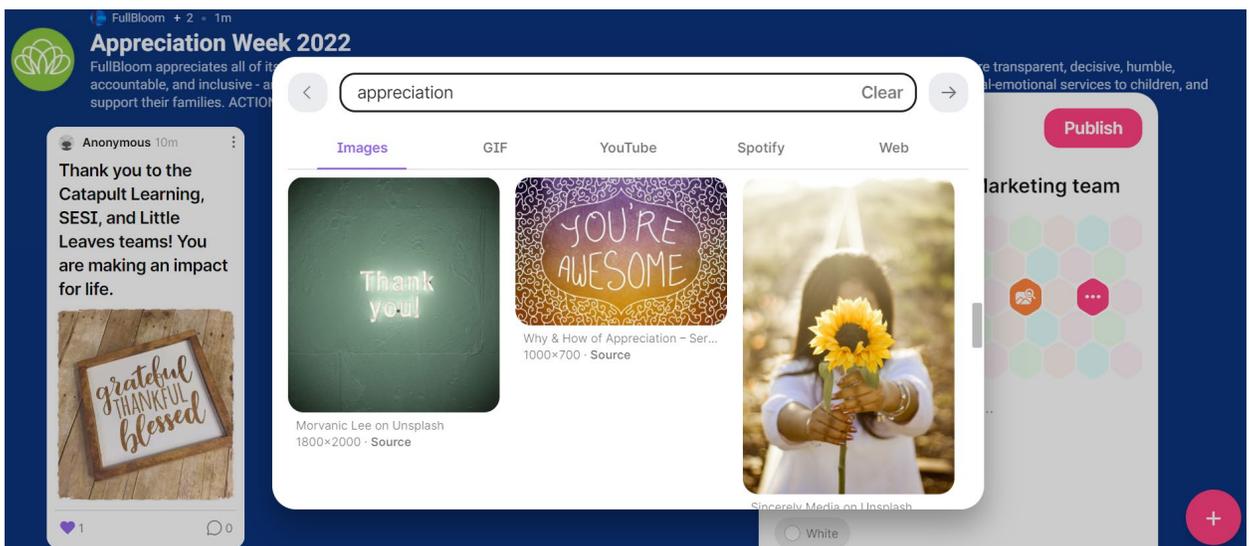

3. In the top text (subject) field, type in your name/team if you choose *(note: if you do not add your name, it will post as "Anonymous")*.

4. Below your name, you will see options for attaching different types of files. Click on the "…" icon on the far right to expand your options.

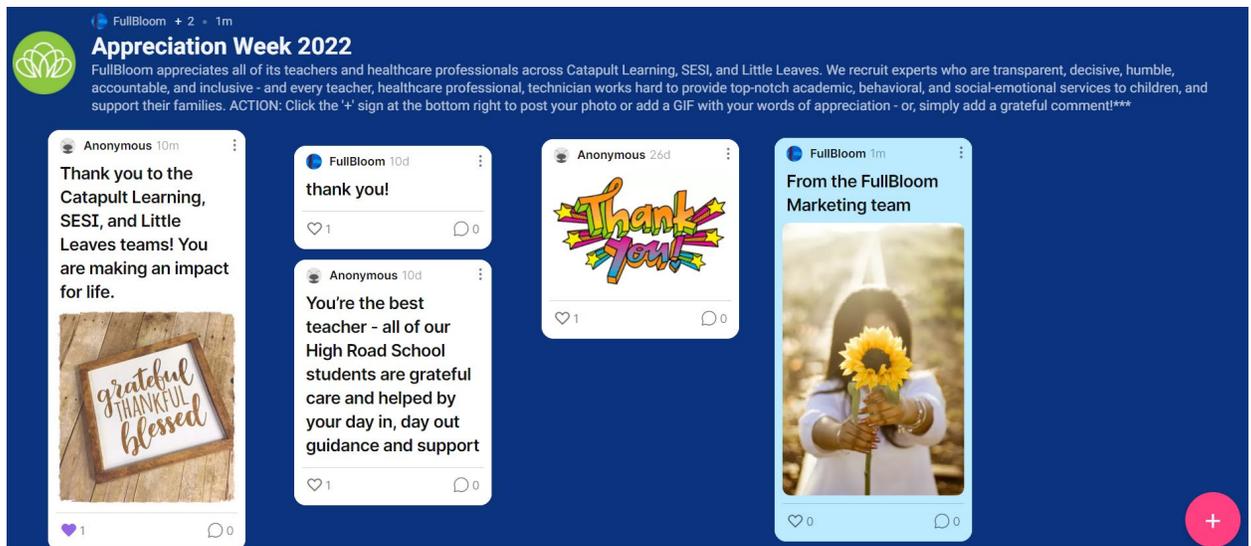

Here, you can search through any of the file formats listed above. Choose whichever you would like for your message. (*NOTE: you can choose to type text only, or to include text plus another type of file listed above*).

5. After you select your file, you can write your own message at the bottom. You can also change your post's background color by clicking on the button that says "White" and select another color *(NOTE: the background color will not change until you submit the post.)*

6. Click the Submit button, and you're all set! Your padlet message (pending approval) will appear momentarily on the padlet page for all to see.

All posts are moderated. If your post is approved, it will appear on Padlet within 24 hours of your submission.

We are excited to see our Padlet full of appreciative messages to specific individuals and teams across the country! Thank you for your participation – and feel free to pass on this guide to others outside of FullBloom who have been positively impacted by our staff and programs.
